DETAILED ACTION

Specification

The abstract of the disclosure is objected to because it contains legal language, specifically “means” in line 6. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 4, 13, 14, 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation “and/or” in line 2 of claims 17 and 18 renders the claims indefinite since it is unclear whether the elements are to be included or not.

Similarly, the recitation “rotary/translational” in claim 13, line 4 is indefinite since it is unclear which type of motion is being claimed.

In claim 3, line 2 and in claim 4, line 1, the recitation “-like” renders the claims indefinite because the claim includes elements not actually disclosed (those encompassed by “-like”), thereby rendering the scope of the claim unascertainable. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by German reference '522.

In so far as the claims can be understood in view of the indefiniteness problems noted above, and in view of the International Search Report, note Figures 1 and 2 and the disclosure in page 2, lines 54, 55 and the disclosure in page 2, lines 104-page 3, line 8.

Claims 1-9 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by German reference '030.

In so far as the claims can be understood in view of the indefiniteness problems noted above, and in view of the International Search Report, note Figures 1-3 and the disclosure in page 1, lines 1-9 and the disclosure in page 2, line 118-page 3, line 45.

Claims 1, 8, 9, 15, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by German reference '819.

In so far as the claims can be understood in view of the indefiniteness problems noted above, and in view of the International Search Report, note Figures 1-5 and the entire disclosure.

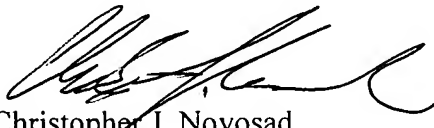

Allowable Subject Matter

Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
